

Tiger Lou, Gone Drifting

finish your drink and we'll buy you another one
there's plenty more where that came from we've just begun
so lean your head right back and ponder this
where is it i've been what did i miss

my mind's gone drifting again
bring me that bottle of brandy the one from france
a few glasses of this and then come the dance
my lips and my tounge has turned out blue
you laughed right in my face before i knew

my mind's gone drifting again
where is it i've been what is it i've missed
is he the one that you kissed
where is it i've been what is it i've done
has the night just begun
where do i go why can't you come

my mind's gone drifting again
