

# Tiger Lou, Patterns

Can you see the marks in me  
Please tell me what they mean  
I think I might have seen this in a dream  
Patterns and circles letters and dots  
I'm tired of drinking but can not stop  
The smoke really lingers in this place I know

On and on and on always  
On and on and on always

My death will be the end of this  
Go on and leave your mark  
I think I might have seen this in a film

On and on and on always  
On and on and on always

Before I fall I wanna taste it all  
Before I fall I wanna taste it all

On and on and on always  
On and on and on always  
On and on and on always  
On and on and on always
