

# Tilt, It's Who You Know

baby you look like somebody  
oooooh to know  
like a rose comin out of a photo  
all your lipstick shows  
I don't wanna make you cry  
I don't wanna even try  
I just wanna say I meet you  
it's who you know  
oh you can talk to me  
make my life complete  
when I think of the ways I can use you  
get me off the streets  
then we spend the night in bed  
and I can't loose my head  
even in lovin  
it's who you know
