

Tim Christensen, Caterpillar

Caterpillar walk away from me now
If you'd like to feel it my friend
You don't understand a thing anyhow
There's no need to stay 'till the end
So caterpillar walk away from me now
Time to move on

Caterpillar you're the talk of the town
They'd all like a piece of you now
You had better keep your feet on the ground
They'd all like it like that anyhow
So caterpillar walk away from me now
Time to move on

Caterpillar walk away from me now
I don't like to see you around no more
Caterpillar walk away from me now
Time to move on - yeah

Caterpillar walk away from your teens
There's a light outside the domain
Hate to see you fall apart at their dreams
You're no longer a part of that game
Caterpillar it's a shame but it's true
Time will pass you - yeah

Caterpillar walk away from me now
I don't like to see you around no more
Caterpillar walk away from me now
Time to move on

You can play the game
Like a giant stinging voodoo crab monster
It's in the game after all

Time to move on - turn your light on
