

Tim Curry, Sloe Gin

Sloe Gin, sloe Gin
Tryin to wash away the pain inside
Well Im sick and Im all done in
And Im standing in the rain
And I feel like Im gonna cry

Im so fucking lonely
And I aint even high
Im so fucking lonely
And I feel like Im gonna die

Mayday, mayday Ive been shot down
Over the stormy sea
Well I swear that Im drifteing away
Just cant get a grip on me
Well..I cant even try

Im so fucking lonely
And I aint even high
I hate to go home alone,
But what else is new ?
Im so fucking lonely

I hate to go home alone,
But what else is new ?
Im so fucking lonely
Im so fucking lonely

You stand and bleeding people pass you by
Dont matter if you live
Dont matter if you die

Sloe Gin, sloe Gin
Tryin to wash away the pain inside
Well Im sick and Im all done in
And Im standing in the rain
And I fell like Im gonna cry

Im so fucking lonely
And I aint even high
Im so fucking lonely...
