

Tim McGraw, A Place In The Sun

Long ago, far away
I felt your lovin glow upon my face
Was it a dream or just a promise made
What is my destiny

Someday Ill find a way to shine
Leave all these rainy days behind
I know theres got to be
Some place warm and bright for me
Im running out of places I can run
Looking for a place in the sun

Darkness hangs overhead
Close to the point where angels fear to tread
I close my eyes and think of you instead
And pray youll be here soon

Someday Ill find a way to shine
Leave all these rainy days behind
I know theres got to be
Some place warm and bright for me
Im running out of places I can run
Looking for a place in the sun

Sometimes it feels like this whole worlds against me
And every beaten path
Is just another winding road that tempts me
Far from you and all thats true
Ive got to find my way again

Someday Ill find a way to shine
Leave all these rainy days behind
I know theres got to be
Some place warm and bright for me
Im running out of places I can run
Looking for a place in the sun

Yeah Im running out of places I can run
Looking for a place in the sun
Oh, wont you shine down on me Sunshine?
