## Tim McGraw, Senorita Margarita

Back seat of her daddy's car I was tryin' not to go too far Kept thinkin' 'bout the words the preacher man said Lightning flashed across the sky I saw love in a young girl's eyes And that's a look you never forget Seventeen Only comes once in a lifetime Don't it just fly by wild and free Goin' anyway the wind blew baby Seventeen Livin' on crazy dreams Rock and roll and faded blue jeans And standin' on the edge of everything Seventeen Legs hangin' off the bayou bridge Feedin' fish potato chips And talkin' bout the mysteries of the universe Yeah the world was somewhere else We had the summer all to ourselves And the stars went off like fireworks Seventeen Only comes once in a lifetime Don't it just fly by wild and free Goin' anyway the wind blew baby Seventeen Livin' on crazy dreams Rock and roll and faded blue jeans And standin' on the edge of everything Seventeen Seventeen Only comes once in a lifetime Well don't it just fly by wild and free Goin' anyway the wind blew baby Seventeen Livin' on crazy dreams Rock and roll and faded blue jeans And standin' on the edge of everything Seventeen Yeah seventeen Sweet seveteen
