

# Tim McGraw, Watch The Wind Blow By

Creek goes rippling by  
I've been barefoot and all day with my baby  
Brown leaves have started falling  
Leading the way

I like it best just like this  
Doing nothing all the way  
So let's lay down in the tall grass  
Dreaming away

And all I wanna do is let it be and be with you  
And watch the wind blow by  
And all I wanna see is you and me go on forever  
Like the clear blue sky  
Slowly, there's only  
You and I  
And all I want to do is watch the wind blow by

Girl, you know you told me not so long ago  
To let it come, then let it pass  
And all your troubles and your sorrows  
They won't last

So let me kiss you now, little darling  
Beneath this autumn moon  
Cold wind, another season  
Will be here soon

And all I wanna do is let it be and be with you  
And watch the wind blow by  
And all I wanna see is you and me go on forever  
Like the clear blue sky  
Slowly, there's only  
You and I  
And all I want to do is watch the wind blow by
