

Tim Rushlow, I can

This might come as quite a shock
But Ive given it a lot of thought
This thing thats come between us
Cant be ignored.
Ive taken all I can
This is where its gotta end
Cuz I cant be your friend anymore,
And I cant be accused
Of not being there for you
How many nights have you shown up at my door
I hope you understand
That this wasnt in my plans
But I cant be your friend anymore

CHORUS:

And its killin me to know you without
Having a chance to hold you
And all I wanna do is show you how I
Really feel inside
You can run to me
You can laugh at me
Or you can walk right out that door
But I cant be your friend anymore.
So baby now its up to you
Do I win or do I lose,
Will my heart fly or lye broken on the floor?
Well take me as I am,
Cuz I wanna be your man
But I cant be your friend anymore.

CHORUS:

And its killin me to know you without
Having a chance to hold you and all
I wanna do is show you how I
Really feel inside
You can run to me
You can can laugh at me
Or you can walk right out that door
But I cant be just friends anymore
We cant be just friends anymore.
