

# Timbaland, Hands In The Air (ft. Ne-Yo)

Hey baby girl, looking all grown up  
I wanna know: Where did you come from?  
The heat begin to rain I warm up  
And we're about to go in plane, Jesus  
Let's party hard, and just move something  
The vibe is right and it goes, goes, goes on like you

Such a beautiful crowd, love is on in town  
We're standing on chairs with our hands up in the air  
Girls getting real loud  
They're blowing in the wind  
We're standing on chair with the hands up in the air  
with the hands up in the air /4x

If you're standing on them soft couch cushions  
Careful not to break your concentration  
Maintain sexy as she maintains balance  
Balance, if you fall, baby girl it won't be cute at all, ale all  
Drinking, you look me roughly in the eye, eye  
Only comes dancing, holding on?  
Plus you're the music, plus you're the light, light  
\_\_\_ equals one hell of a night, and now I'm talking about

Such a beautiful crowd, love is on in town  
We're standing on chairs with our hands up in the air  
Girls getting real loud  
They're blowing in the wind  
We're standing on chair with the hands up in the air  
with the hands up in the air /4x

I got my eyes closed  
Jumping up and down, baby I'm a \_\_\_  
I got my eyes closed  
Listen to the sounds so hypnotizing  
And I bet before the night in  
I won't find one?  
Take her home, get it the next morning  
Baby girl, give me that one more? before you go!  
I got my eyes closed (baby I got my) / 3x

Such a beautiful crowd, love is on in town  
We're standing on chairs with our hands up in the air  
Girls getting real loud  
They're blowing in the wind  
We're standing on chair with the hands up in the air  
with the hands up in the air /4x
