## Timbaland, I Got Luv 4 Ya

Yeah, uh huh, yeah, huh (echo)

It's Tim and Maganoo again, uh It's Tim and Maganoo again, ah, ah It's Tim and Maganoo again Let me talk to ya

(Verse 1 - Timbaland)

I remember those days when I was holdin back When Star Crunch was a popular snack Would you buy you that, sneak the rest in my nuts You know that Johnny Appleseed and that frozen cup We grew up, but ain't you sister Jean cousin (cousin) Just cause we older that don't mean nothin (nothin) We still could hit the beacon, a couple of Bible meetings Live right just like the deacons and backslide on the weekend Now things change, not just your new love See you never used to trip off material stuff So I ain't mad at dude cause he rimmed up his truck Just mad at you, you clumsy klutz And it's no suprise how I'm feelin inside So the only thing you ever probably did for my eye Used to tears in the bucket, I hope you dummies loved it Although it's over, you still my soldier (my soldier)

(Chorus - Timbaland) Cause I got love for ya Can I get a hug from ya? I'm not tryna point the finger and judge ya Cause I make mistakes like you I forgive ya boo You can keep the things that I brought ya I'm not tryna play correctional officer I'm just tryna take them burdens off of ya Cause I make mistakes like you I forgive ya boo

(Verse 2 - Magoo) I first met ya at the strip club Instead of one, had to give ya two dubs Right from sight baby, I was past love

It must be the fact, opposites attract Do the addition, it's a one on one thing, and I'ma lace you with bling Cause the way you make me feel is an incredible thing But you had to hurt me, made love to my best friend But just like "Chucky" I'ma stay 'til the very end On top of that, you was usin crack and cocaine You had oomph, had to throw my towel in mayn I can't judge cause I cheated, you ain't hold no grudge I had a child with her, baby it's warm in love Then Christmas Eve we was playin two hand spades You rolled on up, Ace I'm sorry but I have AIDS But I'ma ride with you, until your death And I'ma stay by your side, last heartbeat, last breath

(Chorus)

(Break - Timbaland) I hope ya forgive me too, uh I hope ya forgive me too (too), uh I hope ya forgive me too (too) Be adults about the situation baby, c'mon (Chorus)

(Timbaland - talking over Chorus) Can I? Go head Uh uh

(Break - Timbaland) I hope ya forgive me too, uh I hope ya forgive me too (too), uh I hope ya forgive me too (too) Two wrongs don't make a right, girl, uh Two wrongs don't make a right, girlll Oo, oo, let's ride out Let me talk to 'em Let me talk about it Heavy T, Oo we right, we out
