

# Timomatic, Parachute

Uh Timomatic

Yeah!

There's something 'Bout you,

There's something 'Bo-out you

There's something in your eyes tells me we 'gon be alright

I'm playing with fire

Playing with fi-ire

That nothing can put out but I feel so safe right now baby,

Take me higher than I've been before, so I can feel the foe

Before you catch me

Count me in baby 1 2 3 4

Yes sweep me of this floor

I know you'll catch me

With somebody like you

Somebody like you-ou-ou

Baby I don't need a parachute

I could fall from the moon

But if I've got you-ou-ou

Baby I don't need a parachute

Parachute

Parachute

You got me going

You got me go-oh-ing

You got me going hard

Fire blazing in the car

Burning this higher

Burning this high-i-er

And you can't stop me now

Turn it on and let's get loud baby,

Take me higher than I've been before, so I can feel the floor

Before you catch me

Count me in baby 1 2 3 4

Yes sweep me of this floor

I know you'll catch me

With somebody like you

Somebody like you-ou-ou

Baby I don't need a parachute

I could fall from the moon

But if I've got you-ou-ou

Baby I don't need a parachute
