

Timothy B. Schmit, Take A Good Look Around You

(t. b. schmit/k. koch)

Take a good look around you
Do you see what I do
Take a good look around you
"cause I'll be gone
I'll be gone

Since you came here with your pretty eyes
I ain't been the same
You try to fill my head with all those lies
While you're flirting with some other guy
When I'm here with you
Every thought was just for you
Now face the facts baby
There is only one thing for you to do

Take a good look around you
Do you see what I do
Take a good look around you
"cause I'll be gone
I'll be gone

Sometimes I wonder if you're made of stone
"cause you don't say a word
It makes me feel like I'm all alone
Why should I lose everything
When you lose nothing
Every thought was just for you
Now face the facts baby
There is only one thing for you to do

Take a good look around you....
