

# Timothy B. Schmit, Tell Me What You Dream

(v. melamrd/j. leo/t. b. schmit)

All of your life  
You hold out for love  
You give what you have  
Still that's not enough  
What went wrong  
"cause now what we share  
Is too many fears  
Too many secrets  
Too many years denied

Tell me what you dream at night  
While you're sleeping  
Tell me what you see at night  
When you dream  
Is it someone else's arms that hold you tight  
Or darling, is it me  
Tell me what you dream at night

While you sleep

Deep in the night  
You whispered so low  
I lay by your side  
I felt so alone, alone  
I reached for your arms  
You called out a name  
It wasn't my own  
It caused me such pain inside

Tell me what you dream at night  
While you're sleeping  
Tell me what you see at night  
When you dream  
Is it someone else's arms that hold you tight  
Or darling is it me  
Tell me what you dream at night  
While you sleep
