

Tina Arena, Message

Song Title - Message

Once again I sit and wonder
Something I said was so wrong
You're the one I really need now
Give me the strength to carry on
(Catch me when I fall)

There again I'm fallin
Can you hear me callin
I need you with me now

CHORUS

I've just got to get a message to you
It's only you I wanna run to
I'll do anything I can do
And I won't stop til I get through

I see myself pretending
Afraid that I'll fall behind
When I close my eyes I feel you
Your tender touch keeps me alive
(How do I survive?)
When I can't you say I can
No one else could understand
The thought I keep inside

CHORUS

Feel so alone
The feeling so strong
Your love sets me free
It's where I wanna be *2
Where I wanna be

CHORUS

Got to get a message - repeated til end
