

Tina Cousins, Killin' Time

If I could get over you
Then I could get away from here
It's such a lonely place
I only have myself to blame
And if I make it through
The wasteland of my mind
Maybe then I'll find a way
To find a brighter day
But I'm just killin' time
Since you went away
All I have are memories
And every day they fade
I'm the love you didn't want
The love that couldn't reach
I reminisce on every kiss
And I'm just killin' time

Thought that I could change your mind
But some things can never be
And so our story ends
If only we could be friends
And though you're far away from home
I feel every breath you take

You're livin' deep inside of me
And I just can't be freed

But I'm just killin' time
Since you went away
All I have are memories
And every day they fade
I'm the love you didn't want
The love that couldn't reach
I reminisce on every kiss
And I'm just killin' time

Where are you now
Where are you now

I'm just killin' time
Since you went away
All I have are memories
And every day they fade
I'm the love you didn't want
The love that couldn't reach
I reminisce on every kiss
And I'm just killin' time
