

Tina Turner, Crazy In The Night

(G. Porter)

[From Summer Lovers Soundtrack]

Somewhere out in the galaxy
A number's up but not for me
There's a light inside the window
And the curtain's coming down
Pig is on the spit and turning round

Going crazy in the night
Crazy in the night

Dropped in from Munich with a master plan
Guess he left his wife and kids at home
He's got so much money rollin'
From the crimes he'll commit
But the Siamese cats are gonna take a little bit

Going crazy in the night
Crazy in the night
Will I turn and run or do I stand and face the gun...oh
Going crazy in the night
Everybody seemed to have lost their way
Crazy in the night
Seems there's no way outta here
Do I turn and run....No!

Got no hands but I've got my head
I've come so far from the temple
Maybe this is Babylon or maybe it's a dream
If it weren't so beautiful, it would be obscene
Drinking with the panthers, dancing for their life
God, this place is hungry
Come and see the players but don't stay for the show
The cats are out tonight, hungry for their rites

Going crazy in the night
Crazy in the night
Will I turn and run or do I stand and face the gun
Going crazy in the night
Everybody seemed to've lost their way
Crazy in the night
Seems there's no way outta here
Will I turn and run...No

Got no hands but I've got my head
I've come so far from the temple
Maybe this is Babylon or maybe its a dream
If it weren't so beautiful
