

Tinashe, Up We Go

It's like you're lying on the tracks when you hear the train coming
It's like you take another shot cause you need to feel something
Spend all your money on the dress but your shoes are still clashing
It's like you still got on the plane and they told you it was crashing
Dumb

Now I'm falling from the sky
With no parachute in sight
And it's too late to look behind
So here we go, here we go

Oh my, look at us fly
We'll gonna fall hard, but in the mean time
Look at us fly
And up we go and away
And up we go any way
And up we go and away
And up we go any way

I need you in my life now like a bullet in my head
But I can't fall asleep without you lying in my bed
Every day I tell myself there's a better situation
But addiction is addiction, and fuck it, it's amazing

Now I'm falling from the sky
With no parachute in sight
And it's too late to look behind
So here we go, here we go

Oh my, look at us fly
We'll gonna fall hard, but in the mean time
Look at us fly
And up we go and away
And up we go any way
And up we go and away
And up we go any way

It's like you're running to the smoke when you know there's fire
But then you light another spark and watch it burn higher
Let it go, let it go, let it go, let it go, let it go, let it go

Now I'm falling from the sky
With no parachute in sight
And it's too late to look behind
So here we go, here we go

Oh my, look at us fly
We'll gonna fall hard, but in the mean time
Look at us fly
And up we go and away
And up we go any way
And up we go and away
And up we go any way
Eee..., no!
