Yh, But look how fast she got ma heart beat racin'

I mean it, I don't think I'm plannin' on leavin'

Soft lips I'm in love with the feelin'

In bed she a freak I'm a demon

Outside she a lady das my baby

Me I'm a goon wit feelin's

She's dere when I need her most

So I keep her here, hold her close

I spoil her I like to see her boast

He bought me these, them and those

Tell them we don't need no hoes

No game show real life no joke

Nd I ent one to get close

But this time round look I can feel it

It's like she brings out the best in me
When we all chill in da stress indeed
I ent about all vexin beef
Or caught in the hype ur better then weed
I kno I sed I rely on me
But sometimes even I'm in need
Sometimes the future looks dim
Guess who's there to help me see
U see me I live through music
I'm the one swear down I'll prove it
When I feel like the world is against me
There's one voice tellin' me you can do this
One voice tellin' me get through this
Like a loyal friend no judice
Wise she's far from clueless
Nd the truth is

I can feel it
