Titiyo, Time

This world has no patience, time It's spinning while we're wasting, time In roadblocks, subway stations, time We're waiting wasting time Well life takes a turn Let's keep on straight It's easy to burn On stolen faith Give in, give out Give in and get out with me Give in, give out Give in and give it to me Give in, give out Give in and get out with me Give in, give out Give in and give it to me Well life takes a turn Let's keep on straight It's easy to burn On stolen faith The world has no passion, time I'll judge you by your actions Give in, give out Give in and get out with me Give in, give out Give in and give it to me Give in, give out Give in, give out
