TLC, All I Want For Christmas

Tis the season to be givin'
And I've got somethin' just for you
Let's take a trip to my cabin
We can celebrate
A funky Christmas made for 2 (oh)
That's all I want

Chorus

All I want for Christmas
Is to be loved by someone like you
Outside the snow is falling
My heart is calling
To spend my Christmas time alone with you

Now throw a log on the fire
Then we could trim the tree
How much fun it would be
To take a walk in the snow
As you're holdin' me close
That would be your Christmas gift to me

Chorus

Maybe it ain't got nuttin' to do With my 2 front teeth Not unless of course you're lookin' For some chewed up beef See I love ya cuz I'm in love And in love cuz I love ya These words and sentences is for the heads Between and above ya Can you imagine me alone A dial tone A two flips cone The echo of a moan A single bow A measley dug it A pea in the bucket Flat out for Christmas all I wanna do is (yow) Maybe if my baby didn't treat me like a lady Diss the host for my toast Kiss the spot that's mostly shady Twist the left all around Flips these lips upside down Then you'll never have to ask me why I'm crazy So hear me in or hear me out Give me deaf or give me doubt Or tell me what it's all about And if you figure out my flow Be it fast or be it slow Me and my baby will be chillin' with the mistletoe
