

TLC, Don't Pull Out On Me Yet

Unh, remember me?
Well if you don't
I think after this song
You will

We got tonight all alone baby
No distractions no if and or maybes
Lately we haven't had to time to
Do the things we usually do
I've been thinking bout something
Real special for you
And I want you to be good to me too
Yeah

I love it when you touch me
Feelin' so good that it must be
Right for you to love me
And do all the things that I wanna see
I had a long day and my tension is strong
Need a release baby you turn me on
Whatever you do just don't stop
So oh oh oh

Chorus:
So don't go too fast
(So don't go fast)
Make it a night that I won't forget
Gotta make it last
(Gotta make it last)
Livin' the love that I haven't seen
Awoke from the past
(Woke from the past yeah)
Tonight is the night that you won't regret
So baby just don't pull out on me yet

But when you satisfy me
I can tell it when you know my body
Holdin' me closer to you
Ain't gon' wait let me do what I do
See I get a funny feelin'
That makes me wanna share it
Over and over again
I love it when you touch me
Feelin' so good that it must be
Right for you to love me
And do all the things that I wanna see
I had a long day (had a long day)
And my tension is strong (tension is strong)
Need a release baby you turn me on (you turn me on)
Whatever you do just don't stop
So oh oh oh

Chorus

Baby baby baby
