

TLC, I Need That

This is a special song just for
Our fans on the internet
Sometimes you need that

Ha, tlc's back boy
Again and again
Woo

Ooh, i-i-i-i (i, I)
Ooh, ooh
Ooh, i-i-i-i
I-i-i-i-i

You and me (you and me)
Trading fantasies (uh huh)
Lying on the beach (yea)
Oooh baby (ooh, ooh baby)
I need you next to me (next to me)
'cause I'm steadily (uh)
Craving all the things
That you gave to me (that you gave to me)
Ohhhh

Bridge:

Don't you wanna know the dreams that I go through
Picturing the things I want to show you
Tellin' me sweet things I want to hold you close to me (close to me)
I really don't care who knows I wanna break you
Off give it to you like I'm supposed to
Baby i, I can't take this no more
I want you

Chorus:

Take me
'cause I want and I need that
Squeeze me
Then we'll know I like that
Tease me
I got to have you on me
I need that
Take me
'cause I want and I need that

Squeeze me
Then we'll know I like that
Tease me
I got to have you on me
I need that

Constantly (huh)
I fantasize on how to be (how)
Your favorite lady (uh huh)
Oooh ooh baby (ooh)
I wanna feel your energy (yea energy)
Just flowin' through me (flow through me)
Creatin' memories of how I know it could be (oh)

Bridge

Chorus

Chorus

Yo I keep it blazin' it's so amazin'
The occasion that I am raisin'
Mind body invasion
So who you savin' all that love for
Open up your mind explore
We'll make it hard-core
You can be the candy man
I'll be your candy store
Give you just a little more
Than what you bargained for
And if you ask me for some guidance
It's not a minus
I'll break it down to a science
Kitchen appliance
To what extent can you measure the true
Value of my 100 percent
When I'm unpassionate to you
Who thinks dollars and cents
I must confess I need that
Don't wake me up if I'm dreamin'
Because I'll be in that

Chorus

Chorus
