

TLC, This Is How It Works (Waiting To Exhale So

Not everybody knows just how to do it
Some just learn it on the way
Once you get it right, ain't nothin to it
If you wanna get it right, you gotta learn to pace
Make it smooth, take your time
Make it groove, in, out, in
Make it last, kiss, kiss, kiss,
Kiss my ---, ah, ah, ah

Chorus- This is how it works
Wrap your hand around my body
This is how it works
Go do south and
This is how it works
Melt yourself into my body
This is how it works
Kiss my mouth

Some guys think they know the answers
Everybody know how to make you scream
If most guys took time out there fantasies
Maybe we can stop our make believe
Make it smooth, take your time

Make it groove, in, out, in
Make it last, kiss, kiss, kiss,
Kiss my---, ah, ah, ah

Chorus

(Left-Eye)

Ready set go, you don't have to know
We can take forever, learn together any flow
Touch me slow, watch it grow
Kiss the tip, gently flow, be my ho and take the show
We can watch it in slow mo, when the sweet & low drips
Dont forget to let me lick my finger tips
Write love letters back & forth across your face
Spread my hips, count to eighty, eighty ways, eighty trips
Make it smooth, take your time
One time for your mind, two times if ya tense baby let it unwind
Make it groove, in, out, in
Three counts let it bou---nce to the motherf---ounce
Make it last, kiss, kiss, kiss
Here we go, now you know, 4th down, let it flow back around come on
Kiss my, kiss my, mm-wah

Chorus
