

# TLC, What's Up

Dede o'neal & left eye  
(appears on vinyl promo and black history month sampler)  
This track is very rare

How long do I let this thing go on  
Before I run away  
Not begging you to stay  
But I'd like it if you could  
And you're knowin' that you should  
Be down with the one  
That's gonna love you baby  
So stay and stop drivin' me crazy

Chorus:  
What's up  
What's up with you and me  
Baby I wanna know  
What's up with us  
What's up  
What's up with you and me  
Baby I wanna know  
What's up with us

You see I'm not tryin'  
To ride and pressure you  
If it's somethin' you don't wanna do  
But I got to let you know  
Your position must be known  
There ain't no reason to front  
So I guess I will be blunt  
And just let you know that  
I'm walkin' out the door  
Unless you tell me right now  
What you're gonna do with my love  
Oh baby

Chorus

I don't know why  
But I've always tried  
Why don't you lay down  
Why don't you hang up your tie  
What's up baby  
What's up baby baby baby baby  
Oh

Don't be afraid and don't  
You fade on my escapade  
Fantasy lives within the dream  
That we have made  
Callin' me up 6 in the mornin'  
The break of dawn and  
Before I could imagine that you'd be gone and  
I think about the times we share  
Call it do or dare  
Ask me if I'm bein' fair  
Do you really care  
See me and you like a holiday  
Never too late to celebrate in a lot of ways

What's up  
We really don't need to play  
These guessing games no more

What's up  
I gave you all my love you said it was too much  
You don't want no more  
What's up  
You really didn't need to play  
These guessing games no more  
What's up  
I gave you all my love you said it was too much  
You don't want no more

Chorus

What's up

Chorus
