

# Toad The Wet Sprocket, Are We Afraid

Are We Afraid

Wasn't it hard  
And did we want penance  
Summer's so long  
Colder men when their ice prayer never came

Didn't we fight it  
And weren't we hard  
Holding back a friend of mine  
All the way coming home

Aren't we the ones who never got tired?

Wasn't it magic  
The flames rolled and I said okay  
Weren't we just asking  
For something to come our way

Are we another, were we afraid?  
Is there a hope that we'll wait to walk a time?  
He's a long road...

And I feel like a newborn again  
But the night holds on alone  
I'm coming home

Don't we mind waiting  
And are we ashamed  
Coming here in the black dark night  
And I don't feel so strange

Are we the lady?  
Were we afraid?  
Are we the summer...
