

# Toadies, Jigsaw Girl

Give me your hand and I will hold it forever  
On my nightstand in a box with your love letters  
I love you dear, and I know we will not be parted  
I'll keep you near, scattered around my apartment

This is not the same world you lived in  
And I could breathe easier once I brought you back again  
You are not the same girl you have been  
I promise I'll never lose you

Give me your hair, just a lock will do  
An old photograph to capture the spirit of you  
And I'll keep these things wrapped up in an old cotton blouse  
The one you wore that summer before your love petered out

This is not the same world you lived in  
And I could breathe easier once I brought you back again  
You are not the same girl you have been  
I promise I'll never lose you

Laid on my bed  
A beautiful mess  
My whole world  
Jigsaw girl  
You gave me your hand  
You gave me your hair  
And I don't understand why you don't want it back

This is not the same world you lived in  
And I could breathe easier once I brought you back again  
You are not the same girl you had been  
I promise I'll never lose you, never lose you  
Honey I tell you true I'll never lose you
