

Toadies, Sweetness

Peel away your skin just a little more
You can let me in just a little more
Can you taste it, I do
When you bite down on the truth
We can peel away just a little more
I'll cut you right down to your sweetness
Right to your sweetness

I know it hurts real bad to lay it open
I've tried so hard myself to make you love it
Well, my love, my pride
I swallow you tonight
We can peel away just a little more
I'll cut you right down to your sweetness
Right to your sweetness

Peel away, peel away

Cut right down to the soul, to the center of you
I found me a home for the sinner in me
Cut down to the soul, to the center of you
I found me a home for the sinner in me
Cut down, cut down
The sinner in me
The sinner in me
The sinner in me
The sinner in me

I'll eat you slow, my sweetness
You give control, my sweetness
I drink you down, my sweetness
I think I found my sweetness
my sweetness
my sweetness
my sweetness

Cut right down to the soul, to the center of you
I found me a home for the sinner in me
Cut down to the soul, to the center of you
I found me a home for the sinner in me
Cut down

Cut right down to the soul, to the center of you
I found me a home for the sinner in me
Cut down to the soul, to the center of you
I found me a home for the sinner in me
Cut down, cut down, sinner in me
Cut down, cut down, the sinner in me
