

Toadies, You'll Come Down

Give me back my legs
I want to walk like I did
You stole away my breath
Floating over my head
Do you lead me on
With your fingers across my back well
When I drag you down
You will sink like an anchor you will
Like an anchor yeah

You'll come down
On my side
You'll come down
In good time
You'll come down
On my side
You'll come down

And as I'm falling out of the sun
Back to where I feel safe again
How did I come undone
Trying to save my own skin
I want to be your hero
I want to show you the good fight
The good fight, yeah
I want to touch your face before you
Sink like an anchor you will
Like an anchor, yeah

You'll come down
On my side
You'll come down
In good time
You'll come down
On my side
You'll come down
You'll come down

You'll come down
You'll come down

You'll come down
On my side
You'll come down
In good time
You'll come down
On my side
On my side
On my side
You'll come down
