

# Toadies, You'll Come Down

Give me back my legs  
I want to walk like I did  
You stole away my breath  
Floating over my head  
Do you lead me on  
With your fingers across my back well  
When I drag you down  
You will sink like an anchor you will  
Like an anchor yeah

You'll come down  
On my side  
You'll come down  
In good time  
You'll come down  
On my side  
You'll come down

And as I'm falling out of the sun  
Back to where I feel safe again  
How did I come undone  
Trying to save my own skin  
I want to be your hero  
I want to show you the good fight  
The good fight, yeah  
I want to touch your face before you  
Sink like an anchor you will  
Like an anchor, yeah

You'll come down  
On my side  
You'll come down  
In good time  
You'll come down  
On my side  
You'll come down  
You'll come down

You'll come down  
You'll come down

You'll come down  
On my side  
You'll come down  
In good time  
You'll come down  
On my side  
On my side  
On my side  
You'll come down
