

# Toby Keith, She Only Gets That Way With Me

She ain't shy  
She's outspoken boy  
She always speaks her mind  
Except those quiet little moments  
When I am all she needs  
And I hold her tenderly  
She only gets that way with me

She don't cry  
Some how she seems to keep it all inside  
Until those magic little moments  
When I am all she needs  
And the love is good you see  
She only gets that way to me

And she gets sad sometimes  
She'll never show it  
You might make her mad  
But you'll never know it  
She don't wear her heart out on her sleeve  
She only gets that way with me

And she ain't weak  
My baby's just as strong as she can be  
Until those nights she comes and tells me  
That the want to in my eyes  
Gives her butterflies  
She only gets that way with me  
She only gets that way with me  
She only gets that way with me  
Thank God she only gets that way with me
