

# Tocotronic, Jackpot (English)

You are the jackpot of my life  
And you're right  
The metaphor is more loose than tight  
But when you laugh  
Three suns come up  
We are out  
And we are proud of it

You have the know-how  
And I have your trust  
They have no secrets from us  
And when we laugh  
Three suns come up  
We are out  
And we are proud of it

We are out  
And we are proud of it (3x)
