

# Todd Edwards, Critters Have Feelings

I live in the woods, where nothing's as it seems  
Beneath the stars one night I met the woodchuck of my dreams  
She's always biting, and my heart cuts like a tree  
Nothing but splinters, those teeth are sharper than they seem  
(Critters have feelings) well, critters have feelings  
(Critters have feelings, too)  
(Critters have feelings) oh, critters have feelings  
What's a critter gonna do?  
I live on a leaf, and I crawl 'cause she make me  
Last week she sprouted wings, and this butterfly did fly, fly away  
Seeing other people, maybe I should do the same  
An ex-caterpillar, her wings grew bigger than I dreamed  
(Critters have feelings) well, critters have feelings  
(Critters have feelings, too) well, critters have feelings, too  
(Critters have feelings) oh, critters have feelings  
What's this critter done to you?  
(What's this critter done to you?)  
37 years ago  
She put a spell on me  
A spell where when I'm talking  
I'm singing with glee  
(Critters have feelings) well, critters have feelings  
(Critters have feelings, too) well, critters have feelings, too  
(Critters have feelings) oh, critters have feelings  
(What's a critter gonna do?) Whats this critter gonna do??  
(Critters have feelings) and I can burrow and I can swing  
(Critters have feelings, too) but this forest don't mean a thing without you now  
(Critters have feelings) and animals have feelings  
(What's this critter done to you?) animals have feelings  
(Critters have feelings)  
(Critters have feelings, too)  
(Critters have feelings) y'know, critters have feelings  
What's a critter gonna do?
