

# Token, Best Highs

Um, I remember when I got off the stage and, um, I saw him lookin' down-  
I had I gut feeling and just knowing it was over and I needed to go look up something on his phone  
I just remember waking up one day-  
He was like "Hi"-

Hey, yeah, yeah  
Highs never last long enough  
Highs never last long enough  
Highs never last long enough  
Best highs never last long enough  
Used to want a dad in my life, now he wants a son  
Used to want a dad in my life, now he-  
But best highs never last long enough  
Best highs never last long

I do what I want, I'm in charge of myself, girl  
Liquor make it hurt less when I'm starving myself, girl  
Rich, but we ain't eatin' and it's hard for my girl  
Empty stomach, I can't even keep it hard for my girl (I remember-)  
Best highs never last long enough  
Smiles in the kitchen but bathroom I'm throwin' up  
I know I'm my mom's son, just my mom's son  
I know I'm my mom's son, just my mom's son  
Put my pride aside, I asked Jeanine to be my girlfriend  
Two weeks in, I'm the reason that my girl's sick  
She might want payback, cheatin' that's a whirlwind  
Every time I tour and hit the world, the world win  
I had dreams of being like Drizzy in the studio  
I get high from hunger, so I'm all dizzy in the studio  
I work so fucking hard, a hundred songs, I scrap 'em all  
Shit, I've been off, I got my fans wondering like "Is he in the studio?"  
Fear is the problem, fans want the album  
Label want hits, I feel like I don't got 'em  
Only thing in common between everybody watching  
Said they loved the real him  
But they don't know a thing about him

Highs never last long enough  
Highs never last long enough  
Best highs never last long enough  
Best highs never last long enough  
Used to want a dad in my life, now he wants a son  
Used to want a dad in my life, now he-  
But best highs never last long enough  
Best highs never last long
