# Token, Definition Of A Rap Flow

Definition of a rap flow
I'll give it a stab. Get them all mad when I shit on a track

'Cause I'm an ignorant asshole
Middle finger as big as my fat nose

I'm killing the mass more than who's shipping tobacco
Writtens will stack so
Each syllable's amo
I'm sicking the whack 'cause I'm sick and a whacko
You're like sixty, you're mad old
I'm sixteen, but when I'm spitting women tell the kiddies that dad's home
Some of these spitters be spitting this syllabic shit that I'm spitting this minute but when they be spi
Never saying shit in the lyric, they just spit it to spit it

You miserable ass, your shit isn't that dope
You mimic my tracks so I'm killing you cats like dinner for japs, woah

You used to be getting big in the past
But you slipped and collapsed
And it's impossible to whiteness a stick on the grass grow

Give me the pass
I'm bringing the lyrical back
Killing for Mass
Think of a track,
Scribble it quick in a pad
It's an attack
'Finna be mad
Big in the map
You're 'finna be living in shacks
I'm 'finna be living in castles
Who's spitting this rad yo?
That's how to get straight like the shit was an afro
I told myself I would change the sceme but I got so many rhymes, my mind is an infinite capsule
A riveting, limitless, diligent, intricate, disciplined, militant, sickening, venomous, instrument finishin
'Cause rap's looking like an idiot's bad joke
So it's my duty to hit the tip of the flagpole
While simultaneously getting you to trip through the trap door
So step up your game or quit 'cause can't flow
