

Token, Hard White Remix

Lyrical villainy's given epitome is officially finishing killing spree
Sickening enemies and isn't a mystery his victory's imminent history
Fitness agility isn't shit to mental energy, it is a disability

'Cause I witnessed an epiphany-

Mind over matter, gain mental ability

It's mind over pressure. Mind over pleasure

Bash you in your mind if your mind don't remember

That mine's only clever

So when it comes to music, I rather spend time over cheddar

I'm better than I've ever been. You don't feel me

'Cause I'm officially better than you ever will be

I'm filthy, you're no one special

Couldn't stop my growth potential if you killed me

You're not impressive you're called the best hope you got a blessing

You're not a small contestant, skin crawls when your jaw is spreading

The consequence is a palm to peg it and claws to stretch it

Then meet a blade named pride, you gon' swallow, get it?

Pardon, I'm not a menus, this just how I solve aggression

The glob of darkness in my chest you call a heart is shredded

You're nothing, you're a pawn in chess and I'm the king to you

Or you're the night, 'cause you take L's when you're making moves

Pay your dudes, this solo shit ain't the thing for you

You're debut got 18 views and they were mainly you

So go get fucked off a record deal, be the meat to feed 'em

And I just met with Interscope, they said I don't even need 'em

'Cause I'm spreading by grinding this hard dude

I'm spreading like I am the cops trying to stop a guy in his car who might have just robbed you

I'm spreading like I am the cause of viruses strong as Tyson with paws, a knife, and a glock, trying

I'm spreading like lying on Fox News

I'm moving, quicker than expected

Driven like a Lexus

You thinking you're the best but I am thinking in a grip that you'll be living like a peasant

Killing with a breath like it was stricken with asbestos

Sicker than a metic who was given no protection when he's living with some men with the symptom

Even with it, still my pen is limitless and endless

We've been different since second grade. When you were molding Play doh,

I was studying how Socrates molded Plato

You bought a knife but I got a sharper dome and they know

So you're scared to your bones 'cause you don't wanna show-da-blade though

I'm a protégé bro

You are never gonna get in my zone, okay bro?

The only way you're serving me is to hold a plate full of spaghetti and bolognese bro

So I play no games 'cause I came

For the throne as Dayo aims at my frame

At a show don't lay no, go insane and they say

I control the stage yo. Stay in your lane

I'm expanding mine. Branding mine

It'll blow you away like a dandelion

Stopping this can just be fantasized

I'm doper than chemicals in Amanda Byrnes

Fuck each drug you glamorize

Glasshouse put together and they're vandalized

Not man of crime,

So talk and get the fuck beat out of you by a fan of mine
