

Tokio Hotel, Love Is Dead

I hold your letter in my frozen hand
The last line was long, as long as it burns, my look carries on
With every word, another feeling dies
I'm left here in the dark, no memories of you
I close my eyes

It's killing me
We die when love is dead
It's killing me
We lost a dream we never had
The world, it's silence should forever feel alone
Cause we are gone and we will never overcome
It's over now

Vultures are waiting for what's left of us
What can we take?
It all has no worth if we lose our trust
They're coming closer, want me and you
I can feel their claws
Let me go now
Try to break free

It's killing me
We die when love is dead
It's killing me
We lost a dream we never had
The world, it's silence should forever feel alone
Cause we are gone and we will never overcome
It's over now, now, now
It's over now, now, now

It's over now
It's over now
It's over now

Vultures are waiting for what's left of us
Taking the last of you and the last of me

It's killing me
We die when love is dead
It's killing me
We lost a dream we never had
The world, it's silence should forever feel alone
Cause we are gone and we will never overcome
It's over now, now, now
It's over now, now, now

It's over now
It's over now
