

# Tokio Hotel, What If

I am down for something  
Come pick me up in your car  
Don't let me down for nothing  
I wanna know who you are  
And if you down for something  
I want a piece of your heart  
Come let's just not do anything  
Give me a piece of the stars

We high as fuck nowhere to be  
No second chance in this galaxy  
It could be you  
It could be me  
So let us be:" you and me!

What if I 'd love you till the end  
You'd never be alone again  
/2x  
What it  
So what if, baby

I try it once, it's nothing  
Get you back in the car  
We're getting lost in some new place  
At least we know who we are

We high as fuck nowhere to be  
No second chance in this galaxy  
It could be you  
It could be me  
So let us be:" you and me!

What if I 'd love you till the end  
You'd never be alone again  
/2x  
What it  
So what if, baby
