

Tom Jones, Give A Little Love

I got myself
By an obsession
It's on
Another dimension
Don't need a whole
At protection
'cause it give me
All i've been getin'
It give me life, hope,
Dreams, golds, you know

Youve got to give
A little a love,
Give a little a love
Go on just do it,
You can't confuse it
Give a little a love give
A little a love
Go on and do it, go!

Leaving in a world
When is plenty
So how
I come running and empty
When we been touch
By so many
And still
There's more without many
Without any life, hope,
Dreams, golds, you know

We've got to give
A little a love,
Give a little a love
Go on just do it,
You can't confuse it
Give a little a love,
Give a little a love
Go on just do it, go!

You know you got to do
What you can
You know you got
To try to understand

You've got to give
A little a love, g
Ive a little a love
Go on just do it,
You can't confuse it
Give a little a love
Give a little a love
Go on and do it, go!
