## Tom Jones, Give A Little Love

I got myself
By an obsession
It's on
Another dimension
Don't need a whole
At protection
'cause it give me
All i've been getin'
It give me life, hope,
Dreams, golds, you know

Youve got to give
A little a love,
Give a little a love
Go on just do it,
You can't confuse it
Give a little a love give
A little a love
Go on and do it, go!

Leaving in a world When is plenty So how I come running and empty When we been touch By so many And still There's more without many Without any life, hope, Dreams, golds, you know

We've got to give A little a love, Give a little a love Go on just do it, You can't confuse it Give a little a love, Give a little a love Go on just do it, go!

You know you got to do What you can You know you got To try to understand

You've got to give A little a love, g Ive a little a love Go on just do it, You can't confuse it Give a little a love Give a little a love Go on and do it, go!
