

Tom McRae, Hear Me Now

How I wish
You could hear me now
I drew my blue world
Turn it upside down
Now I'm a long way down
A long way from your arms

How I wish
None of this was true
You can blame the cards
Rip the deck in two
Now I'm a long way back
A long way from the start

She said
I'm coming down fast
I'm coming down hard
I'm shattering like a glass
I am coming apart
I'm losing heart
I fall into your arms
To your arms

Baby I
Went back the funeral row
Gave the dogs on the street
My heart and bone
Now it's a long way back
A long way to the start

She said
I'm coming down fast
I'm coming down hard
I'm shattering like a glass
I am coming apart
I'm losing heart
I fall into your arms
If I can't come for you, run for you
I'd save you from the dark, from the dark
And if I can't feel my way
If I can't feel my way
If I can't feel my way
Through the dark

She said
I'm coming down fast
I'm coming down hard
I'm shattering like a glass
I am coming apart
I'm losing heart
I fall into the dark
If I can't come for you, run for you
I'd save you from the dark, from the dark
If I can't come for you, run for you
I fall into your arms, to your arms
