

# Tom Petty And The Heartbreakers, Moon Pie

Well who you callin' moon pie, my real name is richard  
I live in a little town you've probably never been to before  
There's a post office surrounded with gardenias  
And a pair of mud flaps waggling at my door

I don't know what I want to say but somebody's got to help me  
Nobody knows I'm here  
No please don't call me moon pie, my real name is richard  
My identity will disappear
