

# Tom Petty, Dreamville

Goin' down to Lillian's music store  
To buy a black diamond string  
Gonna wind it up on my guitar  
Gonna make that silver sing

Like it was Dreamville  
A long time ago  
A million miles away  
All the trees were green  
In Dreamville

I keep wakin' up all by myself  
With a bluejay in my brain  
Flappin' his wings, makin' me sing  
It was just about to rain

Like it was Dreamville  
Where I was born  
Light years from here  
And the air smelled good  
In Dreamville

Like it was Dreamville  
A long time ago  
Light years from here  
And the trees were green  
In Dreamville

Ridin' with my mamma  
To Glen Springs Pool  
The water was cold  
My lips were blue  
There was rock and roll  
Across the dial  
When I think of her  
It makes me smile

Like it was Dreamville  
A long time ago  
A million miles away  
All the trees were green  
In Dreamville, in Dreamville

Yeah it was Dreamville  
A long time ago  
Light years from here  
And the air smelled good  
In Dreamville, in Dreamville
