

Tom Petty, Even The Losers

(Tom Petty)

Well it was nearly summer, we sat on your roof
Yeah we smoked cigarettes and we stared at the moon
And I showed you stars you never could see
Babe, it couldn't have been that easy to forget about me

Baby time meant nothin' anything seemed real
Yeah you could kiss like fire and you made me feel
Like every word you said was meant to be
Babe, it couldn't have been that easy to forget about me

(Chorus)
Baby even the losers
Get lucky sometimes
Even the losers
Keep a little bit of pride
They get lucky sometimes

(Bridge)
Two cars parked on the overpass
Rocks hit the water like broken glass
Should have known right then it was too good to last
It's such a drag when you live in the past

(Chorus)

(Chorus)
