

# Tom Petty, Even The Losers

(Tom Petty)

Well it was nearly summer, we sat on your roof  
Yeah we smoked cigarettes and we stared at the moon  
And I showed you stars you never could see  
Babe, it couldn't have been that easy to forget about me

Baby time meant nothin' anything seemed real  
Yeah you could kiss like fire and you made me feel  
Like every word you said was meant to be  
Babe, it couldn't have been that easy to forget about me

(Chorus)

Baby even the losers  
Get lucky sometimes  
Even the losers  
Keep a little bit of pride  
They get lucky sometimes

(Bridge)

Two cars parked on the overpass  
Rocks hit the water like broken glass  
Should have known right then it was too good to last  
It's such a drag when you live in the past

(Chorus)

(Chorus)
