

Tom Petty & The Heartbreakers, Angel Dream (No. 4)

I dreamed you, I saw your face
Cut my lifeline, when drifting through space

I saw an angel, I saw my fate
I can only thank god it was not too late

Over mountains I floated away
Across an ocean I dreamed her name

I followed an angel
Down through the gates

I can only thank god it was not too late

Sing a little song of loneliness
Sing one to make me smile

Another round for everyone
I'm here for a little while

Now I'm walking this street on my own
But she's with me everywhere I go

Yeah, I found an angel
I found my place
I can only thank god it was not too late
I can only thank god it was not too late
I can only thank god it was not too late
