

# Tom Petty & The Heartbreakers, Asshole

Your brains went black  
When she took back her love  
And put it out into the sun

The birds did fly  
When the heavens all went dry  
And the cigarettes were smoking by themselves

She'll do anything  
She'll do anything  
She'll do anything  
To make you feel like an asshole  
Call her name

She looks the same as you  
With question-marks stretched across her skin

She dangles carrots  
Makes you feel embarrassed  
To be the fool you know you are

She'll do anything  
She'll do anything  
She'll do anything  
To make you feel like an asshole
