

Tom Petty & The Heartbreakers, Since You Said

Hold me tighter and tighter through the night
When you kiss me honey I tremble like a child

And I feel so right since you said you loved me

But the moonlight just ??? shining through
And the night was a ??? shades of blue

And I feel so right since you said you loved me

Hold me tighter and tighter through the night
When you kiss honey I tremble like a child

And I feel so right since you said you loved me
