

Tom T. Hall, Over And Over Again

Over and over say you forgive me for the crazy fool I've been

Over and over I'll be sorry over and over again

Would I be untrue to you dear no no never again

That's one lesson I'll remember over and over again

Back together now and forever ever more will I be true

Over and over I'm gonna prove it over and over to you

(guitar)

Over and over say you forgive me I'll be faithful to the end

I will prove I can be trusted over and over again

Would I be untrue to you dear no no never again...

Over and over over and over over and over over and over

Over and over over and over over and over over and over
