Tom Tom Club, On, On, On, On...

I'm living proof, I love you I know the truth, so do you

On and on we will come There are scores of us On and on, here we come There are more of us

Come to my room, I need you You're living proof, make your move

On and on we will come There are scores of us On and on, here we come

There are more of us

You are the youth, we're with you We're living proof what we can do On and on we will come There are scores of us

On and on we will come There are scores of us On and on, here we come There are more of us

On and on ...
